BeautyStrips™ Mask Usage Instructions

1. Cleanse and wipe face with a clean, damp washcloth.
2. After cleansing, place the top portion of the mask on the face to match the position of the eyes.
3. Once positioned, press down lightly on the mask so it adheres to the skin without air pockets.
4. Place the bottom portion of the mask on the face to match the position of the mouth.
5. Overlap the top and bottom portions of the mask to ensure full coverage.
6. Press lightly on the bottom portion of the mask to finish adhering to skin. Smooth out any remaining air pockets.
7. Leave the mask in place for no more than 15 minutes.
8. After desired amount of time has passed, slowly peel both parts of the mask off face and discard.
9. Wipe face again with a clean, damp washcloth to remove excess mask ingredients.
10. Gently rub a pea-sized amount of BeautyStrips™ serum onto face and neck.

Use a new BeautyStrips mask no more than one time per week. Each package contains one full mask consisting of a top and bottom portion. Contents of one package are intended for single use only. Reusing mask is highly discouraged as it may redeposit bacteria and toxins back onto the skin. If you have sensitive skin, it is recommended that you begin by using mask for five minutes once every other week and increase to 15 minutes over time if no irritation occurs. If you experience any discomfort, stop using immediately and consult with your dermatologist or licensed healthcare professional.

If you tend to have dry skin, additional moisturizers can be applied after using the serum. If you currently suffer from any skin condition, consult with your dermatologist or medical provider before use. Store in a cool, dry place, out of reach of small children. Avoid extreme temperatures and direct sunlight.
